<u>Remarks & Requests (Please Follow everything in Designs) find every image and logos in the folder</u>

1. Change the Font Style with Poppins, here's the link to find Poppins Font Style Link from Google : https://fonts.google.com/specimen/Poppins

2. Remove the Home, Login, Create account backgrounds, and Replace them with White Background refer to the Designs in the Folder for more understanding (I made everything easy for you in the design to understand).

3. Production(should have a dropdown icon containing Planning & Scheduling and Resource Allocution & Demand(refer to prototypes I have sent before (please refer to them to implement everything accordingly and especially your notebook).

4. Every downloaded file such production, QA control, etc. must contain a logo at the top of the file (refer to Logos & Image in the Folder) and also the DownloadedFileMustBeLikeThis.png in the folder

5. Please follow the remarks and requests, I made everything easier for you. So, I want everything to be like I request and See next Monday at 3pm. Please let us be on time and respect the promise.

*You can even resize those logos as needed while using window.

*If I request all above things, because I believe you can do it, & I like everything to be perfect and different from those you have already done, be aware and do your best.

Good Luck 🤞😊
